Students Make Plans for New Youth Center; to Visit LaGrange Y.C.

Antioch Township High school students meeting last evening at the American Legion hall, organized elected officers, and made plans for building a Youth Center.

The 116 students who attended the meeting were fired with enthusiasm and have set about to earn enough money to construct a Youth Center they can call their own.

While Harold Cardiff acted as temporary chairman, the students elected Jerry Healy, a senior, chairman; John Hank, secretary; and Joanne Quilty, treasurer.

They each took a pledge card which calls for the recording of 10 hours of work at 50 cents an hour through which each student will earn \$5 to apply to the building fund.

Representatives of the Lions club and the American Legion Post No. 748 were present and pledged support from their organizations.

Most of the financing and operation of the Youth Center will come from the students themselves.

They will go by bus Friday night to LaGrange in visiting the Youth Center there and getting ideas for the one they hope to establish here. The center at La Grange, operated entirely by young people, is regarded as a success.

Antioch High school students last Wednesday voted overwhelmingly in favor of a local youth center when it was described to them by adult speakers. In class discussions that followed, the assembly 213 students volunteered to help set up the groundwork for the center, and it was mostly these students who met last evening. The volunteers included 40 seniors, 74 juniors, 50 sophomores and 49 freshmen.

Adults who have suggested the idea of a Youth Center for Antioch, are willing to back it, but believe the young people should start and operate it themselves, thereby assuming a responsibility over which they should get much satisfaction. The center would be a wholesome recreation place for teenagers in after school hours in which they could dance, play table tennis and have a snack bar.

BUILD A 'LASTING' PEACE

Work On Pump House, Sewer, Water Mains, For Village Is Rushed

The village land east of the Soo Line is a busy place this week.

The Inland Lakes Sewer and Water Co. is busy digging trenches and laying water and sewer mains, and Art Laursen is busy constructing the pump house for the village's new water well.

At the rate the two crews are working the whole job should be completed before extremely cold weather sets in.

The Inland Lakes Sewer and Water Co. is headed by Mayor Mike Reimers of Grayslake who has had much experience in putting in utility mains and knows what should be done to give the village the best job.

Laursen, a local contractor, as usual, will give his home town a good job.

The new pump will give the village up to 1,000 gallons of water a minute under most favorable circumstances and until the village grows much larger than it is now, the people should have all the water they can use.

The additional water will present a good supply even after the several hundred new homes are built in the next few years by the Crown Realty Co. north of North Ave.

Season Will Open Nov. 20 Against Libertyville in Antioch

Basketball practice was started this week by varsity and sophomore squads at Antioch Township High school in preparation for the opening of the season with Libertyville here Nov. 20.

Mike Haviland, who played in several games near the close of last season, will be a strong contender for a guard position as will Warren Brownlee, whose play last year on the underclass team was outstanding.

Fred Clark, a 6-foot 3-inch lad will come up from the Papposes to take the pivot position and Dave Cain, guard, Jack Palmer, forward, (continued on page 5)

Car Accident on Rte. 21 Puts Antioch Man in Waukegan Hospital

Marvin Sargent, 23, 998 Victoria st., Antioch, was taken to Victory Memorial hospital by members of the Antioch Rescue squad Wednesday night for treatment of cuts about the head received in an accident in which his car ran from the road and struck a large tree on Rte. 21 near Loon lake.

Chris Mortensen, local building contractor, was involved in the accident, but luckily no occupants of his car were hurt and damage to his car was limited to about fifty dollars.

Mortensen was returning to Antioch from Loon Lake, when the Sargent car struck the rear of his car a glancing blow, then ran off the left side of the road. Mortensen said that he did not see the car before it struck his vehicle, and that the car struck his twice before leaving the road.

Many Hunters Spend Holiday in Fields at Start of Bird Season

The holiday yesterday, coinciding with the opening of the pheasant hunting season, sent hundreds of hunters into the fields in this area.

Luck varied, but the more experienced hunters got their limit, or at least a satisfactory number of birds.

In one slough east of the village a group of a dozen or more hunters was observed at one time.

There are more pheasants this year, according to an investigation made by the State Department of Conservation, which attributed the increase to the lack of high water in slough areas and that ability of the hens to hatch their eggs and raise their chicks.

Dryness of the weather is also causing the birds to hide near water.

While yesterday was also the opening of the quail season there are none in this part of the state to hunt.

Armistice Service Conducted Yesterday by American Legion

Fire of Battle Ends at 11; Fire of Hunting Started at Noon

There was more firing in Antioch Township after 11 a. m. yesterday—Armistice Day—than on the whole Western Front in Europe 35 years ago.

Pheasant hunting season came an hour after the zero hour of armistice, World War I, and Antioch people took advantage of it.

Services honoring those who gave their lives in the first world war, were conducted by the American Legion yesterday forenoon. The color guard and firing squad marched from Ida avenue to the cannon at Orchard st. and Broadway where a wreath was placed on the monument, and after taps a salute fired at 11 a. m. Roman Vos was in charge of the ceremony.

An Armistice Day program was conducted Tuesday afternoon at the Antioch Township High school. Charles Whiteleather, Waukegan, past district commander, addressed the student body in assembly on their American heritage made possible by the heroes of past wars.

Arranging the service were Cmdr. Harry A. Mizock, and Edward Jahneke.

At the suggestion of the Chamber of Commerce, most of Antioch's business houses closed yesterday.

Schools were closed and so were banks as the result of the legal holiday.

Phil Vos Chosen for All-Conference Team Four on Second Sqd.

Phil Vos, Antioch senior, was chosen for an end position on the mythical all-conference first team by football coaches meeting Monday evening at Phil Johnson's restaurant in Northbrook.

At the same time four other members of the Antioch squad were placed on the mythical second team. They are Joe Gutowski, a senior, placed at guard; Jim McMullen, Jr., tackle; Bill Gallagher, halfback; and Ben Floyd, end, the latter three juniors.

The first team selection set a new record in oddity, for five of the team were from the three poorest teams in the conference, Grayslake, which never won a game had more players on the team than five other schools above it in standing.

By schools in order of standing the number of first team placements was as follows: Elva-Vernon, 4; Antioch, 1; Glenbrook, 1; Palatine, 0; Wauconda, 0; Bensenville, 0; Grant, 1; and Grayslake, 2.

Antioch's coach, Paul Kessenich, said that the coaches were not satisfied with the results and a new method of selection will be worked out if possible.

The athletic directors will meet Monday to work out a two-year schedule in sports so that referees and umpires can be obtained early.

School Districts Don't Have Power to Spend Money for Insurance

Because a school district is without liability, courts have generally held that it is without power to spend public funds for liability insurance unless a statute permits it. This is the opinion given in a pamphlet "School District Liability," just issued by the American Association of School Administrators, 1201 16th st., N. W., Washington, D. C.

The pamphlet based on a manuscript by Lee O. Garber, professor of education, University of Pennsylvania, and E. C. Volmier, professor of education, Duke University, declares that "to spend funds in such a manner is not only a waste of public funds, but an illegal expenditure as well."

"Protection against a loss for which there can be no district liability is unnecessary," the pamphlet states.

While in many states legislatures have permitted school districts to carry liability insurance and have authorized the purchase of this insurance, such action does not necessarily abrogate immunity.

Coaches Attend Meeting

Antioch Township High School coaches will attend a meeting this evening in Waukegan at which rules in sports will be discussed.

Coaches Paul Kessenich, Richard Scott, Robert Lambert and Warren Polley attended a meeting of coaches Monday evening at Northbrook in which the all-conference football teams were selected.

Miss Betty Jean McDougall served as a member of the Big Ten Court of Honor at the Illinois-Michigan University Homecoming game at Urbana Saturday. She represented Indiana.

Miss McDougall, a graduate of Antioch Township High school, is the daughter of Mr. and Mrs. E. J. McDougall of Rte. 173.

Good football weather, a victory over Michigan, and a packed stadium made the Homecoming event ideal.

Another Lake county girl who served on the court was Miss Joan Nelson of Barrington.

Miss Margery Burger of Webster Groves, Mo., was Homecoming queen, and represented Illinois.

Antioch High Second in Conference Ladder by Beating Wauconda

Ties Champion Elva-Vernon in Scoring; Gallagher Is High Point Man

Antioch Township High School's football team completed its most successful season in many years Saturday with a 13 to 6 victory over Wauconda at that school.

The victory placed the Sequoits second in the Northwest Conference standing next to the undefeated Elva-Vernon Bears, the only team that was able to beat Antioch this year.

Antioch's record in the conference was five victories, one tie game and one defeat. Add to that a non-conference victory over Wilmet (Wis.) High and the showing is quite imposing.

A great defensive club as well as a strong one on offense, the Sequoits tied the conference champions, Elva-Vernon in points scored—122. At the same time Antioch's opponents scored only 38 points, a record that was just seven points behind that of Elva-Vernon.

In defeating Wauconda Saturday, the Sequoits first checked a Wauconda offensive thrust at the 34-yard line and then drove 66 yards in scoring the first touchdown. Bill Blake carried the ball over on a two-yard plunge. Fred Miller converted from placement and the half ended 7 to 0.

The Bulldogs retaliated in the opening of the second half when Hal Fischback broke off tackle for 44 yards and a touchdown. Phil Vos broke through and blocked Hal Bass' attempt at conversion and Wauconda's scoring attempts were ended, although Jack Lawrence intercepted a pass on his own five-yard line, thwarting a Wauconda threat in the third period.

In the fourth quarter Joe Gutowski recovered a Bulldog fumble on the 31-yard line and the Sequoits then drove 69 yards for their second and final touchdown, Bill Gallagher carrying the ball over. He and Blake and Bob Duha were the main ground gainers in placing the ball in scoring position.

Coach Paul Kessenich, quite pleased with the outcome of this season's play, cited the record in showing that it was team play and not outstanding stars that placed the Sequoits near the top of the league. He did not minimize, however, the work of the leaders and the ground gainers.

In the preliminary the Antioch sophomores and the Wauconda sophomores fought to a 7 to 7 tie.

Gun Discharged In Temple While Killing Rabbit At YMCA Camp

Lived With His Aunt, Mrs. Richard Shubert at 1060 Main St., in Antioch

Anthony Krisan, 17, of 1060 S. Main st., was killed instantly at noon yesterday when his shotgun was accidentally discharged into his right temple while he was rabbit hunting at the Y. M. C. A. camp. Hastings lake near Millburn.

Bruce Mix, 17 of East Shore, Crooked Lake and Joseph Slavik, 17, Venetian Village, companions of Krisan, told Deputy Sheriffs Pat Quilty of Antioch and Edward Boehm of Waukegan that Krisan had shot a rabbit and sought to finish killing it by hitting it with the butt of his gun.

The jar of the gun is believed to have discharged it and the youth fell dead.

The body was brought to the Strang Funeral home by the Rescue squad.

Anthony Krisan, an orphan for more than a year, lived with his uncle and aunt, Mr. and Mrs. Richard Shubert for the past two years. He was born Dec. 13, 1935 in Waukegan, and lived at Venetian Village until two years ago when he came to Antioch.

Milking the Taxpayers

A British woman, who is a member of Parliament and Parliamentary Secretary to the Ministry of Health, plans a tour of this country. Her purpose is to talk to groups of all kinds in praise of England's National Health Service—the system under which the practice of medicine has been socialized in that country. It is reported that she is a gifted speaker.

Anyone, of course, is entitled to advocate socialized medicine. But what makes this visitor's tour interesting is its auspices. The trip is to be made under a Smith-Mundt grant. And the Smith-Mundt Bill, which became law in 1948, was passed by Congress "to promote the better understanding of the United States among the peoples of the world and to strengthen international relations." The American taxpayers, of course, pay the bills for those who receive the grants.

Just how talks on behalf of British socialized medicine can "promote the better understanding of the U. S." is extremely difficult to perceive. This country is supposed to stand solidly on the side of maximum freedom for all—and that means freedom for the professions and enterprise no less than for individuals. Socialism, whether of medicine or anything else, is the great destroyer of freedom. Under socialism the government makes the rules and calls the tune and those affected have no choice but to obey.

In short, one wonders why taxpayers should be assessed to subsidize projects, large or small, which if successful would eventually destroy America as we know it.

No Blood From Turnips

At the present time various labor groups are pressing for new or expanded pension systems for workers. An important contribution to the literature on the subject recently was made by the head of the Southern Coal Producers' Association. The coal industry has had extensive—and expensive!—experience in the pension field.

This spokesman dealt with the worker security question in considerable detail. He stressed three major points which, in his estimation, any company establishing or revising a pension and welfare fund should insist upon. First, the program must be actually sound—no payments must be promised or projected beyond the ability of the fund to meet. Second, the fund must anticipate payments which are reasonable from the standpoint of earnings, stability of the business and expected market and business conditions, and at the same time give as much benefit as possible to the retiring worker. Third, under no circumstances should complete control of the fund's disbursement be left to union leadership. Once a pension fund has been established, each worker participating should have a vested right in it, regardless of whether he belongs, joins, or resigns from a union.

This is a perfectly reasonable approach to the

problem. The welfare of the worker is inseparable from the welfare of the industry that employs him. No worker benefit—good wages, steady employment, a pension, or anything else—can long be provided unless the industry can sell its product at a profit in a competitive market. You can't get blood from a turnip—a hamstrung industry.

Revolutionary Concept

A short time ago a man who was a pioneer in low-cost mass distribution of foods died. The Portland Oregonian published an editorial in which it pointed out that this principle of merchandising has become practically universal. In conclusion the paper made a significant observation—it said that he "had an idea that eventually revolutionized the lives of millions. The manufacture of interchangeable parts, the assembly line, (to go far back) movable type, and (still farther) the wheel were all products of such ideas. It is not always the scientist, the philosopher or the statesman who points the way to progress. Many times it is the mechanic or the merchant, both too often scorned by the professional thinkers."

Modern retailing certainly substantiates that view. What mass distribution—based on the principle that very small unit profits will add up to a satisfactory total profit if sufficient goods are sold—has done for our living standards can hardly be exaggerated. It has been applied to everything that sells at retail—foods, clothing, furniture, appliances and so on down the list. It has been one of the primary reasons why the vast majority of American families take as a matter of course a wealth of goods and commodities which seems unbelievable to the people of most other countries. Here is one of those revolutionary ideas which has brought a better life to all.

The Low Down From Hickory Grove

Well, folks, I been figuring somebody or other would be solving—sooner or later—the farm problem. I been thinking—and still do—that like with a black cloud in the sky, it is more often just wind versus water. But since the wind is not dying down I reckon I better do something my ownself, busy as I am with my own problems of getting together the old do-rime to cover the county tax, the gasoline tax, the income tax, the sewer tax. I miss out just one tax—dog—and you know that just shows how nice a no-tax item can work out—I have no neighbors to tell me my dog has been diggin' up bones and such in their front lawn. The neighbors like me.

But back to wind—and the farm problem. I thought I could leave everything to Ezra—there is a guy that I would say is a 10 to one shot to know a dozen times more about farming than any 10 who sound-off loudest on the question. Uncle Ike got himself a good man when he picked that Utah gent, Benson.

Our problem is a U. S. A. lock, stock and barrel kind of "business" problem—where to get the dinero to support everything—guarantee everybody everything via every kind of handout by Uncle Sambo.

Everybody, black, white, or bronze has his problem—dentist to barber to banker to the sweet little woman of your heart. I say, stop the handouts by Uncle Samuel—all of 'em—folks get along without alms if they have to. Simple, isn't it? Are there any questions?

Yours with the low-down,
JO SERRA

Eighty or more guests and members were present, and doughnuts and coffee were served from the Halloween decorated tables. The local camp met at the Avery home on Tuesday evening this week for its annual turkey dinner and a short meeting followed.

The local fire department entertained the workers at last summer's carnival at a pot luck supper at the fire station last Saturday evening and had a most enjoyable time.

**Winsor Residents Don't
Want Village to Take
Possession of Drive**

Residents of the Winsor subdivision don't want Winsor drive turned over to the village.

Representatives of the community say they want the exclusiveness created by the two columns at the entrance of the 35-foot drive which keeps out the general traffic. This they told village trustees.

Frank Powles, owner of the portion of the drive from Main st. to the curve, wanted the village to take possession so that he would be relieved of the liability of damage. He was told that since the adjoining property owners have an easement over the drive, he would have to get their signatures first. This couldn't be done.

The owners of the easements suggest that Powles protect himself through insurance.

When a "stowaway" was discovered on board the Service Force hydro-survey ship USS Sheldrake (AGS-19) the skipper, Lt. Cmdr. C. L. Cohn's New Salon Opens in Waukegan

Cohn's family shoe store has moved one door north into its magnificently appointed new two story shoe store in Waukegan.

An all-glass front discloses a salon-type interior with two tape-carpeted sections for women and a department for men which is done in California redwood. The children's section is deftly accepted by a gigantic luminous screen to give the effect of daylight.

A large sample room and executives' offices are on the second floor which supports a distinctive mezzanine balcony arranged for the convenience of the bookkeeping and statistical departments.

Cohn's shoe store has been operated by three generations of the Cohn family since Louis Cohn opened his store in Waukegan in 1904.

"To celebrate the opening of the finest and oldest shoe store in Lake County," Cohn's are promising a valuable free souvenir to every one who visits the store during the rest of this week.

Auxiliary News

Education of Orphans of Veterans

To help overcome unusual educational difficulties in the lives of our Veterans' children, the American Legion Auxiliary has instituted the Education of Orphans of Veterans Program which also includes assistance to all children of veterans in need of such help. Information is furnished regarding opportunities afforded them through which they may attend the college of their choice assisted by a wide scope of scholarships and other educational aids.

Among the Auxiliary scholarships offered are the Illinois Opportunity scholarship and one presented by the National President, both in the amount of \$600.00 and available through competition annually to daughters of deceased veterans who are graduating from high school during the current year.

Closely allied with this program and giving it strong support is the Illinois Auxiliary's own Student Loan Fund which is not only available to the children of Veterans of World Wars I and II and the Korean

conflict, but to the Veterans of World War II and Korea themselves as well.

Mrs. Eva Gaylord, chairman in charge of these programs for Antioch Unit will welcome inquiries concerning them.

Initiation of new members into Antioch Unit which had been planned for Nov. 13 has been postponed until the Nov. 27 meeting because of the play "Harvey" being staged Nov. 13-14 and sponsored by the Legion and Auxiliary.

My Favorite Story

By Jack Maynard
Waukegan Band Leader

Attorney Wilber Brazell, who works out of State's Attorney Bob Nelson's office, tells a funny yarn about the late W. C. Fields. Wilber says that after a night of uproarious intoxication, Fields woke up with a cobweb throat and a head full of bees.

He was slated to be on location that afternoon and was frantically in need of an anti-fogmatic or a bit of the "hair of the creature" to relieve the pressure of the screaming moemies. He had a cranberry eye and a grog blossom that shone like Dayglo fire-orange paint.

After whipping off a few bourbon poultices and a couple of blacksmith's helpers, he was jittery, more than somewhat, from the ork-orks. In desperation for relief he turned to the bartender and said, "Listen, My Blushing Little Buttercup, I have an appointment to do a turn on the cinema lot this afternoon. And right now I've got a rip-snorting rumbling in my head and the whole left side feels like somebody was working on it with a brace and bit—I'm hotter than a skunk. Mold me an irrigator's lotion, with about twelve volts on the filament to relieve my throbbing noggin before the sun crosses the meridian."

The bartender said, "How would you like to try a Bromo Seltzer, Mr. Fields?"

Fields pounded his fist on the bar and screamed, "I can't stand the noise."

NEW DISCOVERY ADDS TO LIFE OF HEATING OIL TANKS

Protects Against Rust, Leaks and Corrosion

The main cause of leaks in your oil storage tank is the rust and corrosion which form inside the tank. Corrosion and rust, which eat through metal, are caused by the normal accumulation of moisture in the tank. For years the oil heat industry has been searching for a solution to this problem.

Now, the Shell Oil Company has the answer!

It's SONITOR—a new chemical product that protects against rust and corrosion from the moment it is placed in your tank. If applied in time, SONITOR can double the life of your fuel tank!

We are happy to offer this amazing protection for storage tanks to all our customers—without extra charge. If you are not one of our customers, we shall be glad to supply you with premium-quality Shell Heating Oils—and give your tank SONITOR protection.

Mrs. William Richards' sisters, Mrs. John Hackemer, Chicago, and Mrs. Elizabeth Hackemer, from

River Grove called on her Sunday afternoon.

Mrs. Wilson E. King and three children visited relatives in White-water, Wis., from Thursday until Sunday.

Mr. and Mrs. Roland Schmoskel and daughter, Susan from Kenosha were guests of Earle Crawford and Mrs. Caroline Marble at the Millburn supper and bazaar Friday evening.

It's Trade-In Time
For A Better Deal

Want top allowance on your present car? See us this week for a deal that will raise your pride. Now is your chance to drive a money-saving bargain.

It raises your pride and races your pulse

You feel it the moment we turn over the keys to you.

You now own the handsomest "hardtop" around-a Buick Riviera-and the warm glow goes all through you.

But not alone for the racy beauty of the car.

You feel that prideful surge, too, from the fact that here you bought yourself a whale of a lot of automobile-a whale of a lot of room and power and soft luxury and ride steadiness-for a lot less than you expected.

For the automobile pictured here is a Buick SPECIAL Riviera-which means it delivers locally for just a few dollars more than the "hardtop" models of the "low-price three."

But it's only when you drive away in your rich and bounteous new beauty that the real thrills begin and the satisfaction deepens...

When the highest Fireball 8 power in Buick SPECIAL history whispers away the miles with effortless ease...

When Twin-Turbine Dynaflo* gives you instant getaway response with silken smoothness, and the Million Dollar Ride levels every inch of your way...

When the deep wide seats cradle you in spacious comfort and the great glass areas give you visibility practically unlimited.

Surely you ought to look into this great Buick

that's so prideful to own, so thrilling to drive, so easy to buy.

We'll be happy to arrange a sampling. Can you visit us this week?
